

B Core values:-

- A - participation by all stakeholders
- Empowerment of the women.
 - Sustainability of the program.
 - Fairness, justice, hard work and equity.
 - Transparency, Integrity and accountability.

PROJECT LOCATION.

This Women group is in Oltepesi Mashuru area, Kajiado District, about 120km South-East of Nairobi.

PROJECT JUSTIFICATION.

This area is very dry therefore no agricultural farming to sustain the families who solely depend on pastoralism. Due to repeated drought the degree of poverty has elevated very much.

The issue of poverty has resulted to other major problems e.g sand harvesting and charcoal burning which by themselves has resulted to desertification which leads to doubled problems.

The most hit people in the society are women for they are left to take care of the entire household problems.

If this proposed project will success women will have an improved life style.
